## **PlatformOne Completes Successful Transition for NAMPAC HR Technology and Back-Office Administration Services**

**Atlanta, GA - June 17, 2003** – PlatformOne, the leading provider of HR BPO services for the mid-market, today announced North America Packaging Corporation (NAMPAC), a container manufacturing company, has gone live with PlatformOne's suite of services. Bringing NAMPAC live marks the completion of a significant milestone for PlatformOne's HR Outsourcing initiative.

PlatformOne and NAMPAC have completed the transition of processes relating to: HR Technology services, HR Administration services, and HR Contact Center Support services under the terms of their contract signed in late 2002. The services being delivered and supported by PlatformOne include: HR application hosting and management, payroll services (processing, tax filing, distribution, garnishments, and reporting), HR services (employee hotline), benefits administration (plan setup and maintenance, benefit enrollment services, FSA, COBRA-HIPAA service/compliance, benefit premium reconciliation and reporting), and HR Contact Center support (application users, HR managers and third party partners). Services also include the development and maintenance of a seamless technical integration to NAMPAC's financials system, running in SAP.

PlatformOne successfully completed the transition of services in just over 120 days. They are now providing support for over 1100 NAMPAC employees at 10 North American locations including Puerto Rico. This comprehensive HR service approach allowed NAMPAC to consolidate relationships with 6 different vendors to create one strategic partnership with PlatformOne.

"PlatformOne's services have enabled NAMPAC to significantly reduce the resources we expend on HR technology and administrative services, while better utilizing our human capital to focus on and grow our core business, with added emphasis on higher value strategic HR activities" said Chuck Jenkins, vice president of human resources for NAMPAC. "Traditionally, NAMPAC had embraced the outsourcing of tactical functions such as payroll services with ADP. Today what makes sense for NAMPAC is to create a strategic partnership with a comprehensive partner such as PlatformOne," Jenkins added.

"Our successful transition of NAMPAC's HR processes was accomplished through the cooperative efforts and excellent working relationship of our joint transition team," said Ray Drummond, COO of PlatformOne.

Henry Hardin, PlatformOne's CEO and Founder said: "Our success with NAMPAC continues to validate both our approach and leadership in providing high value HR outsourcing solutions to the mid market." PlatformOne recently achieved another milestone by exceeding 100,000 lives under management.
